Itinerary 1

Memory and the city of Naples

From the station, walk towards P.zza Carità and reach Via Toledo – Spanish Quarters, created in the 16th century to house Spanish soldiers. Now they became an attraction not to be missed

Stop 02 -At the end of Via Toledo, crossing Piazza del Plebiscito and walking through Via C. Console, you reach the "Stele della memoria" crafted by the architect A. De Baggis. It symbolizes the civil commitment not to forget the innocent victims of Mafia.

Stop 03 -At a walking distance you reach another fundamental stop: "La Bottega dei sapori e dei saperi della legalità" established by Fondazione Polis aimed to promote agri-food products made on confiscated land.

La Buvette is part of the Cooperativa Eva, located in Casal di Principe, which enhances the agri-food produced in the confiscated lands taken from the Camorra.

Itinerary 2

Crossing the lands of Don Diana

Stop 01 -This itinerary is dedicated to Don Diana, the anti-Camorra priest, murdered in his Church in Casal di Principe because of his fight for legality, freedom, and justice being uncomfortable for organized crime. The journey through the lands of Don Diana begins by visiting "Casa di Don Diana" (Don Diana's House), a former shelter for teenagers, confiscated in 2004 from Egidio Coppola. It is possible to book educational workshops.

Stop 02 - The exploration continues to the laboratories of the "CEDA - Centro di Educazione e Documentazione Ambientale" (Center for Environmental Education and Documentation), created by the AGRINASCE consortium. The courage to be free
